

Helping You Navigate the Complexities of Medical Necessity

THE QUALITY OF OUR WORK IS BUILT ON AN UNWAVERING COMMITMENT TO PROVIDE UNCOMPROMISING EXPERT PEER REVIEW BASED ON EXCEPTIONALLY HIGH STANDARDS.

The federal government recovers an average of \$3.5 billion annually from alleged healthcare fraud, much related to necessity of care. This staggering number has created a need for peer review to determine, in some cases, whether care delivered was not only high quality but was also reasonable, necessary, and appropriate. In response, MDReview offers a professional and exceptional review that assesses whether patient care records support the necessity of care provided. These reviews provide sufficient information to support the conclusions made. Our customized process, skilled and experienced staff, and superior team of physician reviewers and medical directors enable us to provide an unprecedented level of oversight and expertise for every project.

Contact us today to learn more about how MDReview can effectively support your organization.

About MDReview

MDReview provides highly effective and innovative physician peer review, delivered with the utmost integrity. MDReview's main purpose is to support hospitals in making some of the most important decisions that are at the heart of their quality management efforts. With a national reach to a diverse client base in all 50 states, MDReview is the standard for excellence in peer review. MDReview is located in Centennial, Colorado.
